

## FORTY NEN KILLED BY THE EXPLOSION

### FURTHER DETAILS OF THE HORROR AT DETROIT.

**Fearful Loss of Life the Result of the Blowing Up of the Boiler in the Detroit Journal Building—Seventeen Bodies Found—List of the Dead and Maimed.**

Detroit, Mich., Nov. 7.—The hundred or more employees of the Journal were busy early yesterday morning preparing for a political extra on the election, when suddenly a part of the building was wrecked by the explosion of boilers in the basement. Seventeen bodies have been recovered from the ruins, some thirty tenants and employees in the building are still missing, and there can be no doubt that most of these are lying dead under the debris.

The work of rescue was rushed at the utmost all day and night, but progress has been very slow. The debris and brick are dumped into an almost solid mass, upon which quantities of water have been poured and into which comparatively little headway has been made.

The dead thus far taken from the ruins are:

LIZZIE TAPLEY, aged 20, employed by Davis & Co.

HENRY WALSH, employed by Kohlbrand Engraving company.

JOHN J. REUTER, apprentice in the employ of Dunlap & Co.

GEORGE H. SOULE, engraver.

WILLIE HAWES, 16 years old, mailer, Detroit Journal.

JAMES ROSS.

WILLIAM W. DUNLAP.

HENRY LARIVIERE, employe mailing-room of Journal.

CARRIE BAUER, aged 23, bookkeeper in Hillier's bindery.

WALTER P. SAXBY, machinist, Dunlap & Co.

MICHAEL WARD, stereotyper, Journal.

UNKNOWN BOY, remains found in ruins at 4:15; features unrecognizable; supposed to be John Bowman, employed by Kohlbrand & Co.

UNIDENTIFIED, slight built man, body at the morgue.

The injured:

Cornelius George, foreman Journal mailroom.

Pressman Webber, of Journal, both legs and arm broken; supposed to be fatally injured.

Tom William, assistant foreman Journal, struck on head by steam pipe; not seriously injured.

Frank G. Meiner, seriously cut about head with glass.

Miss Annie O'Donoghue, arms broken; taken out unconscious.

Charles Hergert, employed at John Davis & Co., bruised around head and body and scalded by acid.

Willie House, mailer at Journal office.

H. G. Foye, advertising solicitor on Evening News; cut about head and face.

A. D. Lynch, stereotyper, hand, arm and face burned; contusion of scalp.

James Holt, 16 years old, employed by Speaker Printing company; deep gash across face.

Martin Meyers, advertising solicitor News; cut in the neck.

Carrie A. Speck, clerk; cut by flying glass.

Andrew Hilberschied, machine hand.

W. C. Jupp, face lacerated by splintered glass.

Joseph A. Beresford, bookkeeper; slightly injured.

Lucy A. Holden, stenographer, slightly injured.

Margaret L. Robinson, stenographer, slightly injured.

Joseph Vinter, bookkeeper; painfully injured, but not seriously.

Walter Ott, artist; hands and wrists cut.

Herman Miller, office boy Calvert Lithographing company; knocked down and severely cut by falling glass.

Those missing who are supposed to be in the ruins are: George J. Hillier, Anna Uhlik, Bertha Wheatbush, Anna Wheatbush, John Brietenbecher, Adolph Schriber, Jennie Neubower, Charles Lind, Carrie Bauer, Emma Leabenberg, John Kerber, John Bowman, Kittie Leonard, Louise Ricker, Miss Lue Fretz, James Thomas, John S. Derby, Ernest Perkins, Rose Morgan.

The shock of the explosion not only wrecked a half of the Journal building and moved the other half from its foundations, but it also smashed every pane of glass within a block. The front wall of the doomed portion of the structure fell outward into the street and alley.

At first it was rumored that the entire Journal staff had gone down with the wreck and the wildest alarm prevailed.

When the police and firemen arrived, they found Larned street, on which the building fronted, blocked with debris.

High up in the pile was seen the head and shoulders of a man whose cries could be heard above the pulsations of the engines. A heroic attempt was made to extricate him, but before he could be dragged out the flames burst out all around him and the firemen were driven back. Cries and moans were heard from those imprisoned in the wreck, but the efforts of the rescuers availed little. The fires under the boiler in the boiler-room had ignited

ed the vast mass of paper which had come down with the floors, and soon dense clouds of smoke blinded and stifled the workers.

Mayor Pingree arrived on the scene and with characteristic energy mounted on a pile of brick and called every man within hearing to assist him in rescuing the imprisoned persons. He set the example himself and soon a hundred pairs of willing hands were tearing away at the bricks and beams. Another figure was seen in the ruin, and without any implement men moved great beams and a mass of mortar, and finally dragged out Annie O'Donoghue, who was crazed by fright and was crying, "O papa, save me." Tenderly they lifted her and bore her to a hospital.

Before an hour the cries ceased and the workers labored simply to get out the bodies, for it was certain that those who had escaped fatal injuries from the collapse of the building had met their death in the fearful fire that had followed.

The wrecked portion of the building, which is owned by the Newberry estate, was separated from the rest of the structure by a fire wall. The first floor of that section was occupied by the John Davis company, dealers in druggists' specialties, and by the Journal mailing department. The second, third and fourth floors were occupied by the Davis company, W. W. Dunlap & Co., machinists, and Hillier book bindery. The editorial rooms of the Journal are on the fourth floor, but situated beyond the fire wall, and the staff escaped injury.

The Journal stereotyping room on the fifth floor was directly in the path of the explosion and went down in the wreck. A few had miraculous escapes and came staggering from the ruins after the awful shock, scarce knowing themselves what had befallen them.

Arthur D. Lynch, a Journal stereotyper, who went down with the wreck from the top floor, was pulled from the ruins entirely conscious. He was under a steam table preparing a matrix. When he fell he was protected by the great iron table, and could plainly hear the rescuers at work until they reached him.

M. Jacobs, a paper dealer who had been in Hillier's bindery, had just left the building when the crash came. He thought there must have been twenty girls and four or five boys in the bindery, besides George J. Hillier, the proprietor, of whom nothing has been seen or heard since the accident.

Charles Hackett was found in the ruins in the rear, to which approach had been through the alley. Before he was removed in the ambulance he reported there had been four or five girls on the floor with him. Charles Hergert, a packer employed by John Davis & Co., was on the third floor when the explosion occurred. He said: "There were four others in the building that I know of—Alexander Campbell, Annie Tapley, Kittie Leonard, and Joe Vinter, the bookkeeper. I don't know who got out alive."

From the lists of tenants and employees secured it seems certain that fifty people in all were in the collapsed section. There are still twenty-seven persons unaccounted for, and it is fair to presume that most of them are among the dead. At every hour reports are received of others who are missing, and whose relatives and friends have been unable to find any trace of them.

Two of the injured who were in the hospital will probably not recover. Of those who are now in the ruins it is impossible that any will be rescued alive. Those who were not killed outright have undoubtedly perished, either from suffocation or exhaustion. The only hope is that some of those who are reported missing may be safe with friends.

The total death list will not be known before tonight. It may be even longer before the workmen reach the basement floor of the ill-fated building and the total number of lives lost is known to a certainty.

The work of removing the debris and searching for the bodies went on all night by the aid of electric lights.

Carelessness is undoubtedly the cause of the disaster, but where the responsibility rests is as yet problematical. Thomas Thomason, the engineer, was painfully injured. He said he could assign no reason for the explosion. City Boiler Inspector McGregor says he inspected the boilers himself last August and found them up to the requirements. Some of the employees in the building assert that the boilers were old and known to be unsafe. Still others have a theory that the explosion was caused by chemicals owned by the Davis company stored in the basement. Another circumstance is also considered significant; namely, that carpenters were engaged in shoring up the floor of the second story directly over the boilers in order to sustain the weight of a heavy machine which had been placed in Dunlap's machine-shop.

The most shocking scene attending the holocaust was a struggle between Coroner Butler and an undertaker in the employ of Gies Bros. against undertaker Frank Gibbs. The latter clung to the stretcher while the body was being carried out through the crowd, and as the spectators were becoming excited over the ghastly scene, the police, in the interests of order, rushed Gibbs outside the fire lines and would not permit him to return.

The property loss will be entire for the owners of the building and tenants. It is not believed that the ordinary insurance policies cover the loss by explosion. The loss on the ruined part of the building is about \$20,000. The Evening Journal loses about \$10,000 by the destruction of its machinery, etc.

## DUKE AND MUCH CASH ARE NOW MADE ONE

### MARLBOROUGH—VANDERBILT NUPTIALS CELEBRATED

**St. Thomas' Protestant Episcopal Church the Scene of the Most Gorgeous Wedding of the Season—Bishop Littlejohn Officiates—The Decorations Most Elaborate.**

New York, Nov. 7.—Miss Consuelo Vanderbilt was united in marriage at 12:30 p. m. yesterday, in the Protestant Episcopal church of St. Thomas, to Charles Richard John Spencer Churchill, ninth duke of Marlborough, Marquis of Blandford, Earl of Marlborough, Earl of Sunderland, Baron Spencer of Wormleighton, Baron Churchill of Sandridge, Prince of the Holy Roman Empire and Prince of Mindelheim, in Swabia. The church edifice was guarded by fifty police officers, specially detailed to hold in check the immense

crowd of spectators who began to gather as early as 8 o'clock in the morning. Following the ceremony at the church, for which over 4,000 invitations were issued, there was a breakfast and reception at the home of Mrs. William K. Vanderbilt, the guests for the latter function being limited to 300 in number.

The doors of the church were thrown open at 10 o'clock and while the guests arrived Dr. George William Warren provided an elaborate program of organ and vocal music. This lasted about an hour, and at its conclusion the music was taken up by the New York Symphony orchestra, under the direction of Walter Damrosch. As the

bridal party entered the nuptial music from "Lohengrin" was played and a nuptial hymn was sung by the choir and chorus before the benediction and anthem. The marriage ceremony was performed by Bishop Littlejohn, who christened and confirmed the bride, and the benediction was pronounced by Bishop Potter.

St. Thomas' church was converted into a veritable conservatory of rare tropical foliage and vines. The walls were lined with rare palms, and vines were used to a large extent in the decoration of the ceiling and groined roof which served as a background for the mass of pink and white blossoms used in the decorations. The columns on either side of the aisle were banded with aashes of pink and white chrysanthemums and brown autumnal foliage. Crowning the columns and completely hiding the stonework from view was a capital of palm foliage, hanging tendrils and rare flowers. The columns supporting the dome from base to capital were wound round with broad sashes of pink and white chrysanthemums, while the dome was lavishly hung with massive strands of foliage, pink and white flowers, lilies, chrysanthemums and roses. There several ends of the garlands reached to the chancel rail, the two organ alcoves, the right and left transepts and the north and south galleries.

What the marriage settlements are is, of course, known only to the parties and their lawyers, and all statements concerning them, their terms or the total amount on either side have been purely efforts of the imagination.

### No Freight Is Being Moved.

Devil's Lake, N. D., Nov. 7.—At 11 o'clock last night the Great Northern tie-up is still on here. No freight trains whatever are being moved. The yards and side tracks are blocked with freight cars and engines. The men claim they are gaining ground and express confidence of winning the strike. The engineers and firemen are willing to work, but cannot get conductors or brakemen to take out their trains.

## VICTORY CLINCHED BY LATER RETURNS

### COMPLETE NEWS OF TUESDAY'S ELECTIONS.

**Republicans Elect Governor and Legislature in Kentucky—New York State Legislature Is Republican—Tammany's Victory in New York City Was Complete.**

Louisville, Ky., Nov. 7.—Republican claims and Democratic concessions show that not only has Kentucky elected the full Republican state ticket, but that the complexion of the legislature assures a Republican successor to United States Senator Blackburn. One hundred and five of the 119 counties give Bradley for governor a majority over Hardin of 3,965. The other fourteen counties, estimated according to the vote cast at the last gubernatorial election, will swell this majority to nearly 5,000.

Indianapolis, Ind., Nov. 7.—"If W. O. Bradley is elected governor in Kentucky," said John C. New, proprietor of the Indianapolis Journal, this afternoon, "it will probably make him the Republican nominee for vice president next year."

### FORAKER TO SUCCEED BRICE.

**Ohio's Ex-Governor Likely to Go to the Senate.**

Columbus, O., Nov. 7.—At the Democratic headquarters the total vote of the state is estimated at 853,000, divided as follows: Bushnell (Rep.), 442,853; Campbell (Dem.), 346,000; Coxey (Pop.), 42,161; Ellis (Pro.), 18,864, and 2,500 scattering. It will be seen by the estimate that Campbell polled 6,000 less than in 1893 and 70,000 more than the Democrats had one year ago. The Republicans polled 23,000 more than in 1893 and about 10,000 more than in 1894. It is believed the Populist vote will exceed the Democratic estimate. As to the legislature, the best estimate gives the Republicans a joint majority of 85. Among the state senators elect is James R. Garfield, son of the late president. United States Senator Brice will be succeeded by ex-Gov. Foraker March 4, 1897.

### NEW YORK STATE REPUBLICAN.

**Majority of More Than Two to One in the Legislature.**

New York, Nov. 7.—Later returns from all sections of the state do not lessen the extent of the Republican victory in New York. The total vote unofficially compiled gives Palmer, the candidate for secretary of state, at the head of the Republican ticket, a total of 572,525, while his Democratic opponent, King, polled 505,590, making the Republican plurality 66,935. Both branches of the state legislature will be Republican by a majority of more than two to one. The Tammany victory in the city is not greatly changed by the complete returns from the estimates of Tuesday night. The head of the Tammany ticket, Purroy, candidate for county clerk, has a majority of 16,429.

### New Jersey Is Republican.

Trenton, N. J., Nov. 7.—With but three precincts to hear from in Mercer county, and these estimated, Griggs (Rep.) majority for governor is 3,500. The Democrats have elected but one senator, Daly in Hudson county, while the Republicans have elected senators in Atlantic, Cumberland, Mercer, Morris, Ocean and Bergen counties. This will make the senate stand eighteen Republicans and three Democrats. The assembly will stand forty-two Republicans and eighteen Democrats. The election of Mr. Griggs is the first time in thirty years that the Republicans have elected a governor and they are now in control of almost every department of the state government.

### Republican Plurality in Iowa.

Des Moines, Iowa, Nov. 7.—Iowa is Republican from 60,000 to 80,000 plurality. Complete returns are in here from seventy-five counties. They show a net gain of about 23,000 votes. The same ratio means a net gain of 29,000 in the entire state. Drake will have 62,000 plurality over Babb, the Democratic candidate. The general assembly is Republican on joint ballot by ninety-six. There are only 150 members. The Democrats will have seven out of fifty senators and twenty out of one hundred representatives. It is by the vote on joint ballot that Senator Allison will be re-elected to the United States senate.

### Is Kansas Weary of Prohibition?

Topeka, Kas., Nov. 7.—Ex-Chief Justice Albert H. Horton, a steadfast Republican and high in the councils of the party in Kansas, leads a revolt against the rule of prohibition. He is a prohibitionist, and as chief justice regularly sustained the constitutionality of the law when it was brought before the supreme court, but he sees in the defeat of so many Republican candidates in various localities on account of the law yesterday, and in the unexpected vote polled for an obscure young man who was in the ballot as resubmission candidate for chief justice, signs that the people are weary of the strife engendered by the liquor question and want it resubmitted.

### Incomplete Returns from Nebraska.

Omaha, Neb., Nov. 7.—Returns from the state upon the vote cast for judge of

the supreme court are being received with unusual slowness. The best indications are that Norval is elected by over 10,000. The vote of the administration or "sound-money" wing of the Democratic party is four-fifths of the entire party vote of the state, probably 25,000. The silver element of the Democratic party is urging that the entire machinery of the federal government in the state was used to secure votes for Mahony, the "sound-money" candidate. Mahony's personal popularity contributed largely to his success.

### Maryland Legislature Republican.

Baltimore, Md., Nov. 7.—Not only have the Republicans elected their entire state and city ticket, but they have carried the legislature, which, according to figures at hand now, will stand in the lower house sixty-eight Republicans to twenty-four Democrats, and in the senate fifteen Democrats to eleven Republicans. Candidates for the seat of Senator Gibson are already springing up, and among those prominently mentioned are Charles J. Bonaparte, the reform leader of this city, and Congressman Wellington, who is the hero of the hour, because of his successful campaign.

### Full Returns from Massachusetts.

Boston, Mass., Nov. 7.—The full returns of the state given Greenhalge (rep.), 185,893; Williams (dem.), 121,404; Kendall (pro.), 8,766; a plurality of 64,489 for Greenhalge, as against a plurality of 65,377 last year. The vote on the woman's suffrage referendum was: es, 107,870; no 184,810; the majority against suffrage being 76,940. The complexion of the senate is: Republicans, 33; democrats, 7; a democratic gain of 3. In the house are 188 republicans and 52 democrats, a democratic gain of 6.

### Returns from Utah.

Salt Lake, Utah, Nov. 7.—The Republicans have elected the state ticket and carried the legislature by a safe majority. The Republican state central committee has received returns from 163 precincts, covering portions of twenty-three counties and the most populous parts of the territory, giving Allen (Rep.) for congress 16,363; Roberts (Dem.), 15,712, being a majority of 651, which, it is claimed, will be increased to 1,000. Wells' majority for governor will be considerably larger.

### CONSIDERING AUTONOMY.

**Spain Begins to Realize the Situation in Cuba.**

New York, Nov. 7.—The Paris correspondent of the World cables the following: I am able to send you the following authentic translations of copies of official cable dispatches now on file at Madrid: To Minister Ultramar, Madrid—Referring to our cablegram of Oct. 30, expressing dissatisfaction at the newspaper interview in which I expressed the opinion that the United States would recognize Cuban belligerence, I reiterate my statement and say further that if this war is not brought to a speedy termination by granting home rule to Cuba the United States will surely give aid to the insurgents and espouse their cause sooner or later. I urge that autonomy be granted to the island, believing this to be the only means of ending the struggle without the loss of many lives and waste of their immense wealth of the island. MARTINEZ CAMPOS.

Madrid, Nov. 2, 1895.—To Martinez De Campos, Captain General, Havana, Cuba: The question of autonomy is being considered, but we fear the Cubans will not accept it.

### "ULTRAMAR, Ministerio."

### Decision Hints Nicholson Law.

Logansport, Ind., Nov. 7.—Judge M. B. Lary yesterday ruled that the penal clause in the Nicholson law is inoperative and quashed two affidavits filed against J. P. Sebastian and David Loftus. His reasons for the ruling are that the law requires a man to be convicted of all the offenses named in the law before he can be punished. Prosecutor C. E. Hale appeals to the Supreme court.

### Adventists Found Not Guilty.

Dayton, Tenn., Nov. 7.—The last of the celebrated Rhea county Adventist trials were closed at noon yesterday and resulted in acquittals in every case. Judge Parkes in his charge instructed that the prosecutions were incited by fee-grabbing officials and those who speculated in witness fees. The charge against the Adventists was creating a nuisance by openly and notoriously working on Sunday.

### Silver Debate at Duluth, Minn.

Duluth, Minn., Nov. 7.—W. H. Harvey, the Chicago champion of free silver, and Congressman J. T. McCleary, the Mankato (Minn.) gold man, appeared on the Lyceum theater stage last night in joint debate. The debate was listened to until a late hour with the utmost attention, and the general feeling was that Mr. Harvey had gotten much the best of the contest.

### Entire Family Perished.

New York, Nov. 7.—Fire started on the first floor of a tenement house, No. 311 Van Brunt street, Brooklyn, shortly after 1 o'clock this morning, in which family of six persons lost their lives. They were: Charles Ryan, aged 49; Mrs. Ellen Ryan, aged 45; Johanna Ryan, aged 20; Sarah Ryan, aged 17; Maggie Ryan, aged 14; Lizzie Ryan, aged 12. The cause of the fire is unknown. The property loss is probably not large.

## A. R. U. MEN SET FREE AT THE CREAM CITY

### ATTORNEY GENERAL MYLREA MOVES TO DISMISS THEM.

**Indictments Are Quashed and the Cases Come to an End—Actions Grew Out of the Strike Last Summer—Two Children Are Roasted At Superior.**

Milwaukee, Wis., Nov. 7.—Attorney General Harmon yesterday surprised the members of the American Railway union by quashing indictments against the following well known members of the organization: Eugene V. Debs, George W. Howard, W. Rogers, Sylvester Keliher, Frank W. Archibald, Cornelius S. McAuliffe, Walter L. Dunn, William Crimmins, John C. Callahan, D. A. Sullivan, Charles Van Ellis, Matthew L. Johann, John Poulter, E. B. Dawes, William Hogan, F. Zimmerman, Sims.

The indictments grew out of the celebrated strike in 1894, the acts with which the men indicted were charged culminating in the city on July 3 and July 5, 1894. There were two indictments, though not all of the men were included in the second indictment. The first indictment contained two counts. Conspiracy was the principal charge.

### Fatal Fire at Superior, Wis.

Superior, Wis., Nov. 7.—One boy was burned to death and his sister fatally injured and the mother seriously hurt here yesterday afternoon. The dead: Hyding Dahlberg, 5 years old. The injured: Hilda Dahlberg, 8 years old; Mrs. Nels Dahlberg. Mrs. Dahlberg and the daughter were sick with typhoid fever and it is supposed that the boy set fire to the house while playing about the stove. He ran into the bedroom a mass of flames and was dead when taken out. The mother and daughter were rescued with great difficulty by the firemen, who carried them out.

### TEEMER GAVE OUT.

**British Scullers Defeat Americans at the Austin Regatta.**

Austin, Tex., Nov. 7.—Threatening weather kept hundreds away from the regatta yesterday, but as it was 4,000 people witnessed one of the finest races ever rowed over any course. This was the double scull, mile and a half with a turn, three miles in all. The starters were Bubeur and Barry, the English team, and Rogers and Teemer, the American representatives. The Englishmen won, after one of the most notable races on record, owing to the fact that Teemer of the American team gave out just before the finish. The race was a terrific one from start to finish, and the yellow flag was flying clear to the mile and a half stage. About ten lengths from the finish line Teemer gave out entirely and Rogers had to pull the boat over the line himself. The Englishmen were so close on the Americans when Teemer gave out that they immediately shot past and took the lead, passing over the line five boat lengths in the lead. Time, 17:40. This time was made over a course with hardly a ripple noticeable anywhere, and lowered the world's record on three-mile double-sculls. The race won the championship of the world for the Englishmen and a purse of \$1,000.

### METHODIST CHURCH WORK.

**Three Important Meetings to Be Held This Week and Next.**

Chicago, Nov. 7.—Three great managing organizations of the Methodist Episcopal church will hold their annual meetings this week and next week. Two of these anniversaries are to be observed in Chicago, and the third will be celebrated in Denver. The board of church extension will begin its sessions at 10 o'clock this forenoon and will continue through Friday and Saturday. On Monday next the Freedmen's Aid and Southern Education society will begin its meetings, which will close Tuesday. The third great anniversary will be that of the general missionary committee of the M. E. church, which embraces both the home and foreign work, and Denver will on Wednesday welcome the visitors who go there representing the annual conferences of the Methodist Episcopal church, as well as the eighteen splendidly equipped foreign fields in which missionaries have for years been successfully preaching the gospel and its higher life.

### INDIANA SHERIFFS ACCUSED.

**Systematic Robbery of the State Charged Against Them.**

Indianapolis, Ind., Nov. 7.—State Auditor Daily has been making an investigation of the accounts of county sheriffs and the statement is made that a number of these officials have been systematically robbing the state. Under the law the sheriffs submit expense accounts for transferring convicts to the state prisons and it is in their statements for this service that the frauds are perpetrated. It seems that the sheriffs have been in the habit of charging for guards, hack hire and hotel bills where no such expense has been incurred, and in some cases false receipts have been secured and given by them as vouchers when receiving their pay from the state. In two cases the fraud was directly charged upon the officers and they turned the excess into the state treasury to escape prosecution.

Afton, Nov. 7.—William J. Miller was severely injured last Saturday morning, by being kicked by a colt, which, with several others, was running out to pasture. The blow struck Mr. Miller on the left hip and while no bones were broken, the injury is sufficient to keep him in bed for a few days. Dr. Palmer, who dressed the wound pronounced Mr. Miller's escape a narrow one, as a few inches more would have landed the flying hoof in his back, with probably fatal results. Freight traffic on the C. & N. W. railway has reached such proportions that "double headers" are now common. Immense trains, and lots of them keep the rails polished on both the Janesville and main lines. A pickup in freight business is also noticeable on the C. M. & St. P. Janesville-Beloit line. The Modern Woodmen of Afton Camp are waking up and propose to have some lively meetings from now on. A special committee was appointed at the last meeting to arrange an entertaining program for the next regular meeting to be held Saturday evening of next week and there is talk of giving a series of social events and entertainments both public and private during the winter. Miss Gussie Nohr of Appleton is visiting with Afton relatives. Mrs. E. J. Antisdel and son Orin, moved to Beloit last Monday having rented their farm, west of the village to Charles Nehle. W. M. Kleber resumed his telegraphic labors for the C. & N. W. Ry. at Clintonville, Wis., last week. Agent Seales has a new telegraph student in the person of Otto Wisch, of Milwaukee, a nephew of Mrs. Edward Hammel. Miss Laura Burden of Harlem, Ill. is visiting her sister Mrs. J. W. Seales. Attorney William M. Lawton of Janesville was in town Tuesday. Farmers in this vicinity welcomed Wednesday's rain as it will allow them to handle their shocked corn a large acreage having been cut up for fodder this year and not much handled as yet, owing to the prolonged dry spell.

### NEWS OF JOHNSTOWN CENTER.

H. B. Johnson Falls From His Buggy—  
Farmers Wet Corn Shocks.

Johnstown Center, Nov. 6.—What came near being a serious accident happened to H. B. Johnson last Thursday. He was getting into his buggy and his feet became tangled up in the reins. He lost his balance and fell to the ground striking on his shoulder and shaking him up considerably but not seriously injuring him otherwise. Patrick Joyce was bitten on the hand by a vicious hog one day last week. Perry Frink came up from Chicago on his wheel last Thursday and stayed over night at Hotel Kehoe. The new telephone line is now completed through here, the wire having been put on last week. It is said that over three hundred hogs have died with cholera within the last few days in Johnstown. Chas. Stoller is doing the carpenter work on Frank Hall's new barn. People are pouring water on shock corn to enable them to husk it and save the fodder. Three or four barrels of water will moisten up a good many shocks. Mart Morse has fifteen months old heifer from which they make three pounds of butter per week. The quake was noticed very plainly in Johnstown. An effort is being made to have preaching in the church Sunday evening hereafter during the winter. School will begin for the winter term next Monday. Mr. Clemons of Milton, will be the teacher. Mrs. Underwood of Richmond, visited in this burg a few days last week. Misses Gertie Rockwell, Lida Spickerman and Josie Chandler visited with Miss Leonard at Milton last Thursday. George M. Chandler, carpenter and joiner, was accidentally omitted from the directory list last week. Henry Stollar spent a couple days last week with his brother Charles.

### WATSON AFTER THE BAD SIDEWALKS

Street Commissioner Will Start His Campaign Early Monday Morning.

Next Monday morning at 7 o'clock Street Commissioner Watson and men will start about the city to notify the property owners in regard to defective walks for the last time. The commissioner says he will enforce the law to the letter, the notice having been properly made and the legal limit run out. Very few have even taken any action when informed by the commissioners, that repairs must be made. Twenty-four hours is the limit for walks on which repairs will not exceed \$5 in cost, while those requiring more than that sum must be fixed within twenty days.

### THE AIR WAS FULL OF "TRICITY"

The Telephone and Light Wires Got Crossed Last Night.

Telephone and an electric light wires got crossed last evening, and the result was a general shaking up in the telephone office. At 7:15 last evening Manager Willitt was in the office alone when all at once the air became charged with electricity and the new switchboard began to hum. Men were at once put to work to locate the trouble, and it was found that a telephone wire was lying across a "live" electric light wire on North River street, near Knipp's brewery, and after a half hour's work the trouble was remedied.

## A LOVELY FACE

Beauty Is the Greatest Power Of  
Attraction.

Women Recognize It; Men Bow Before  
Its Shrine.

The Secret of Good Looks Disclosed.  
How to Look Your Best.

Never was there a time when women did not try to make themselves beautiful. What is so lovely as a round, rosy face, white forehead and full red lips; what so annoying as the black heads and pimples on the face, with the dirty, greasy look which always accompanies them. Life is not worth living the young girl thinks, because of the bad unpleasant look of the skin which she tries in vain to improve by the use of various cosmetics, ointments and powders, not knowing that the trouble is not in the skin itself, but in the system. It is sometimes absolutely dangerous to use outside applications for if the skin is simply cleared the disease is likely to attack some internal organ of the body, where it may prove fatal to life itself. But in purifying the blood, the cure is natural, permanent and without any injury.

Miss Alice Hopkins, who resides at 632 South Tenth street, Philadelphia, Pa., was unhappy because of her unsightly face, and writes an interesting letter on this subject.

She says: "Dr. Greene's Nervura blood and nerve remedy is a wonderful medicine, and it cured me completely of one of the very worst forms of dyspepsia. Words cannot express what I have suffered in body and mind for almost three years. Not the least of my troubles was an entire loss of healthy color in my face. The natural glow disappeared entirely, and a horrible saffron yellow took its place. You can imagine my feelings when I was asked a dozen times a day to whether I was suffering from jaundice. At that time I was enduring all the tortures of indigestion, and could not retain enough food to give me the necessary nourishment. Consequently I lost flesh rapidly and became weaker each day. The doctors told me I was suffering from nervous dyspepsia and biliousness.

MISS ALICE HOPKINS.

"I knew I was getting worse day by day, and I soon lost all heart. Everything irritated me, and I was in a state of most intense nervousness. I took to my bed and did not leave it for several weeks. I firmly believe I never should have risen from my bed again had it not been for the relief I had obtained from Dr. Greene's Nervura blood and nerve remedy. When I look back upon my condition then, it seems positively miraculous that my medicine should have worked such a prompt and effective cure.

"The first benefit I felt from Dr. Greene's medicine was a general toning up of the system. After the first bottle I was able to hold light, nutritious food on my stomach. The constant feeling of dull pain around the region of the stomach, grew daily less, and my blood seemed to circulate more rapidly. I was filled with a new life and hope.

"The effect of Nervura on my complexion was most satisfactory. The yellow tinge gradually disappeared, and in a few weeks the natural color began to return to my cheeks. I was charmed with Dr. Greene's Nervura and continued taking it until I was perfectly well and strong. Of course I was highly complimented on my greatly improved condition, but I always assured my friends that my restoration to health was entirely due to Dr. Greene's Nervura, the wonderful blood and nerve medicine. My complexion is clear and healthy and at night I sleep as well and soundly as a child."

It is letters like these which prove the wonderful power of Dr. Greene's Nervura, the great blood and nerve remedy. By the use of this marvelous medicine the system is cleansed, giving a clear and healthy bloom, and freeing the complexion from blotches and pimples. It is nature's own remedy, a purely vegetable and perfectly harmless compound, the celebrated physician, Dr. Greene, of 35 West 14th St. New York City, who can always be consulted free of charge, either personally or by letter.

## DRY EXTRACT CO. TO ISSUE BONDS

FACTORY PREFERS TO REMAIN  
IN JANESVILLE.

Think Their Preparation Is a Good  
One, and Only Desire to Raise  
Money for Use In Advertising—  
Have Spent \$15,000, Half of Which  
Was Paid for Raw Material.

Capt. W. T. Vankirk, A. P. Burnham and F. C. Hazelton were appointed a committee by the Business Men's Association, at their meeting last night, to get the proposition of the Dry Extract Company into proper form, and submit their report at the next meeting of the association.

J. H. Hetherington treasurer and superintendent, and W. J. Meadows, the president of the company, addressed the meeting. Mr. Hetherington said that his idea was to issue \$5,000 in seven per cent bonds of \$50 each, to run five years, with the option of taking them up in three years; \$2,500 worth of them to be placed in Janesville and the balance to be sold by the company. The bonds would be placed in the hands of a trustee, and secured by a chattel mortgage on the business and plant of the company. He also stated that the company had put \$15,000 into the business and spent \$7,500 of it in Janesville for raw material. He said that the Milkline had stood the most severe tests and read testimonials from physicians in Chicago, Los Angeles, Camden, N. J., Philadelphia and other cities saying that they considered it the best food on the market. It had been widely advertised and yesterday an enquiry had been received from Africa. They had received a proposition to become identified with a \$200,000 company at Manitowoc but preferred to retain the business themselves and remain in Janesville if possible. Mr. Hetherington said that they desired to use the money raised by the bonds for advertising and the money so spent in their business trebled itself. He said the firm had come to Janesville without getting a cent from the citizens and that the town had received the benefit of the money spent and the advertising done.

There is little doubt but what as Mr. Hetherington says, "Milkline will be a go." Janesville people who have used it prefer it to any other food and it is to be hoped that the matter can be arranged so that the company will star here.

REMEMBER our soap sale Saturday, Prentice & Evenson, O. P. O.

The big, hearty, healthy man is a continual irritant to his dyspeptic friend. Constipation is the root of nine-tenths of the sickness of men, and of a large proportion of the sickness of women. It can be cured easily, naturally and quickly. Nature is continually working as hard to force out poisonous refuse matter. When there is an impediment, Dr. Pierce's Pleasant Pellets set the wheels working again without any trouble. They assist nature in a gentle, healthful, efficient way. There is nothing violent about their action, and yet it is just as certain as if it were twice as violent. "You do not become a slave to their use." They are different and better than any other pill for the cure of constipation, headache and kindred derangements. Almost all druggists understand this, and are conscientious enough to tell you so. The druggist who tries to sell you a substitute is not a safe man from whom to buy medicine.

## THE LOCAL OVERFLOW.

## Y. M. C. A. EXPRESS THEIR THANKS

Board of Directors Vote Their Appreciation of the Favors Shown Them

The board of directors of the Y. M. C. A. held a regular meeting last night, at which they adopted the following resolutions:

Realizing the success that has attended the efforts made in behalf of the Y. M. C. A. the past week, and appreciating the fact that the success is very largely due to the aid and interest extended by those outside the body, we, the board of directors, do hereby extend our heartiest thanks

To the ladies who so carefully, thoroughly and successfully canvassed the several wards for funds, also those who did so much to make the building attractive during the week.

To the several livermen who so willingly aided the work by donating the use of carriages and to the most courteous drivers of the same.

To the furniture dealers who donating the use of chairs and other furniture helped materially to appear more homelike and enabled us to hold our Sunday meeting there without extra expense.

To the daily papers who by the free use of their columns spread the news of our enterprise and were instrumental in awakening a great amount of public interest in the work.

To the local pastors who have from the very beginning of the enterprise done everything in their power to advance the cause.

To all others who either by word or deed done in public or private added their efforts to bring about the grand result of the week, a result which warrants the board in ordering the doors of the new building to be opened and in pushing what work remains to be done to a speedy completion.

## MISS WICKES RETIRES IN A RAGE

Will Not Play Because Miss Wallis, the Star, Was Jealous

A dispatch from St. Louis says this is Miss Florence Wickes' last week with Miss Gladys Wallis and her company of players. Miss Wallis was not good to the tall statuesque daughter of Mr. Pullman's vice president and Miss Wickes has refused to play in the star's back yard any longer.

She gave her notice last night and now a new Madelon must make faces at the Fanchett of the play.

The trouble dates back since the first performance of the piece ten weeks ago. It seems Miss Wickes was engaged by Mr. Dunne, the manager of the company, at Miss Wickes' own terms. The salary was a good stiff one. It is said Miss Wallis was jealous because her Madelon received a bigger salary than she ever did in all her five years with Crane before she ventured in stellar ranks. Because of this, Miss Wickes says, Miss Wallis did not treat her well, and last night accused her of laughing at her during one of her "heavy" parts. This precipitated a row, which ended in Miss Wickes' resignation.

A QUEER SHAMPOO.

A Whiskbroom Boy Got His Instructions Badly Mixed Up.

From the Buffalo Express: In one of the hotel barber shops a small Italian boy named Joe officiates with the whisk broom. The other day the hotel housekeeper sent down to the proprietor of the shop and asked him to fix her up a bottle of shampoo. He fixed it and told Joe to take it up to the housekeeper.

"You tell her," said the barber, "to take half a teacup of the shampoo and put it in two teacups of water and apply."

Joe took the shampoo and went up to the housekeeper with it. In a short time he came back, and the barber asked: "Give it to her all right?"

"Yes," said Joe.

"With the directions?"

"Yes," said Joe, again.

Half an hour later the barber noticed the housekeeper out in the hall, looking curiously into the shop. He walked out to where she was.

"Hello," she said. "Which is it? Are you drunk or crazy?"

"What do you mean?" asked the barber, with much dignity.

"You must be one or the other, judging from the message you sent up with that shampoo."

"What message did I send?"

"Joe told me you said to tell me to take a cup of tea and put it in the bottle and lie about it!"

A Quality Not Inherited.

"Yes," remarked Cholly to his tailor, "it's not a bad thing for you to have me among your patrons, you know."

"Perhaps not," was the rather doubtful response.

"My family name, being so well known in the community, is quite—ah—quite an advertisement for you. My forefathers, as you are doubtless aware, were early settlers."

"Yes, I've heard so. But I must say, sir, that in that respect you do not seem to take after them in the least."—Washington Star.

Changes of Climate

Kill more people than is generally known. Particularly in this case in instances where the constitution is delicate, among our immigrant population seeking new homes in those portions of the West where malarial and typhoid fevers prevail at certain seasons of the year. The best preventive for a change of climate, or of diet and water which change constitutes, is Hostetter's Stomach Bitters, which not only fortifies the system against malaria, a variable temperature jump, and the debilitating effects of tropical heat, but is also the leading remedy for constipation, dyspepsia, liver complaint, bodily impurities specially apt to attack emigrants and visitors to regions near the equator, mariners and tourists. Whether used as a safeguard by sea voyagers, travelers by land, miners or agriculturists in newly populated districts, this line specific has elicited the most favorable testimony.

Hydrophobia from a Skunk's Bite.

"Is the skunk a dangerous animal? I should say so," remarked Mr. E. P. Glaze, of St. Louis. "I know very many people will be surprised at the assertion, but there is one species of this unpopular tribe that is as much to be dreaded as a rattlesnake, as I learned one year while sojourning in Western Texas. One night in midsummer a party of us were camping out on the prairie of Llano county, when we were awakened by the screams of a colored boy who had been taken along to cook for the outfit. He said that something had bitten him, and examination showed that his hand was pretty badly torn. There were unmistakable evidences of a skunk in the vicinity, and there was no doubt that it had done the deed.

"The sequel is that a few days later the boy died a most horrible death of hydrophobia. I learned that it was not a rare thing for the bite of these miserable little cats to produce that dreaded ailment, and several well-authenticated cases of it occurred before I left the state. Some people think that hydrophobia finds its origin in these animals."

A Creepy Kind of Sweetheart.

Paris Letter to London Telegraph: From a country town comes the story of a girl who had lost by death three men to whom she was successively engaged. In the first instance the youth, to whom she had been betrothed for a year and a half, expired on the very eve of the wedding. In the second, another young man, to whom she had been engaged soon after the melancholy event, died a few days before the marriage, and his successor in her affections has now shared a similar fate. It seems that sundry ancient females of the neighborhood, attributing this series of calamities to the fact that the young woman has the "evil eye," have calmly suggested that the only remedy is to be found in burning her alive. On that score she need have no fear, of course, but the general opinion is that her chances of meeting with a fourth suitor are now infinitesimal. The unlucky girl is described as being of an amiable and sympathetic disposition, and as being, moreover, of very attractive appearance.

## An Afflicted Widow.

A young lawyer, Maj. Gassaway, has been in the habit of visiting the Widow Flapjack about four evenings in the week. This has been going on for some time, but the lawyer has not proposed. Mrs. Peterby was talking with the Widow Flapjack about this very lawyer. She said:

"What a splendid education he has! He seems to be at home on every subject. There is nothing he cannot explain."

"Except his object in calling on me," replied the widow with a sigh.—Texas Sittings.

## Thought He Had Quit.

Col. McLaughlin sent his Swedish foreman out a few days ago to do some work around the mouth of an old mining shaft, and he took a green countryman with him as an assistant. In a couple of hours the foreman walked up to the colonel's office and remarked:

"Say, colonel, I want anudder man."

"Why, what's the matter with that man I sent out with you?" inquired the colonel.

"Oh, he fall down de shaft 'bout an hour ago, an' don't come up. I tink he yumped his yob."—San Francisco Post.

## Didn't Want Much.

Upward, onward, flew the balloon. Paler and paler grew the face of the aeronaut.

"I envy no king, no millionaire. All I want—"

Higher, higher went the airship—"Is the earth."

Later on, as the tombstone will show, he got it—on his coffin.—N. Y. World.

## Lost the Job.

"So you want a position in my office?"

"Yes, sir."

"Do you chew?"

## GRAND VIZIER RESIGNS.

Turkey's Premier Deserts the Sultan's Government.

Constantinople, Nov. 7.—Kiamil Pasha, the grand vizier, has resigned. Independent reports received here from Armenia do not confirm the official statement that the Armenians provoked the different disturbances which have taken place there. At Erzeroum alone the bodies of 320 Armenians have been found and only the corpses of six Turks were among them. Fresh disturbances are reported to have broken out at Adana. According to the most recent reports circulated Kiamil Pasha will be replaced as grand vizier by Said Pasha, formerly grand vizier and now minister for foreign affairs, and the latter will be succeeded by Tewfik Pasha, the Turkish ambassador to Germany, who has left Berlin for this city.

## Millions Voted for Canals.

## THE SHIRT MY FATHER WORE.

[From the Chronicle.]

My father bought an undershirt Of bright and flaming red—"All-wool," I'm ready to assert, "Piece dyed," the merchant said, "Your size is thirty-eight, I think, And forty you should get, Since all wool goods are bound to shrink A trifle when they're wet."

That shirt two weeks my father wore— Two washings, that was all— From forty down to thirty-four It shrank like lead in fall. I wore it then a day or two, But when 'twas washed again My wife said: "New 'twill only do For little brother Ben."

A fortnight Ben squeezed into it, At last he said it hurt— We put it on our babe—the fit Was good as any shirt.

We never will wash it more while yet We see its flickering light, For if again that shirt is wet 'Twill vanish from our sight.

We are agents for the JAROS. Cannot shrink. Fits like a glove. You can get along without an overcoat. You can keep well without Jaros Hygienic Underwear, but it isn't so easy.

## CANARY IS ON TRIAL FOR THAT SHOOTING

THE CASE WAS BEGUN THIS  
MORNING.

Five Points Affair Is Being Heard By  
By Judge Phelps—Sullivan the  
First Witness For the State  
and Told How the Trouble  
Came About.

Whether or not William Canary shot John F. Sullivan and whether or not he was justified in so doing if he did, is the question which municipal court jury is now considering.

The trial of the case was begun before Judge Phelps this morning, the jury having been drawn yesterday. District Attorney Jackson is prosecuting, while Lane & Franklin are defending. Sullivan was the first witness for the state and told about the same story as was developed on the examination. He said the shooting grew out of his attempt to collect the pay for the dog that he sold to Canary, and told how it happened.

When he had finished, Mr. Franklin gave him a rigid cross examination, and at noon Sullivan was still on the stand. He made an excellent witness being prompt and positive in his answers.

The jury is composed of William Tuckwood, Charles Young, Alfred N. Jones, S. D. Conant, Horatio Nelson, Frank E. Pellant, Thomas F. Baker, John D. Stevens, William Mahon, M. P. Biker, Thomas Bowles and Henry Tall.

A little city boy was making his first visit in the country at his grandfather's. He was very much interested in the Jersey cows, and the first milking which he attended was watched with astonishment. The continuous stream of milk aroused his curiosity, until he suddenly burst forth with: "Say, grandpa, where do you turn it on?"

"Children," said the superintendent of the South Side Sunday school, "do you remember what is said of the lilies—how 'they toil not, neither do they spin, and yet'—will some boy or girl finish the quotation?"

The home of F. Randall is sorely afflicted with diphtheria. Three children are dangerously ill, they being: Miss Ada, aged seventeen years.

Archie, aged fourteen years. Guy, aged ten years.

All are doing nicely under Dr. Joe Whiting's care, he using a new stimulative remedy, but not the anti-toxine.

Miss Ada was the first to be attacked. She was taken ill at 10 o'clock Saturday night. At 8 o'clock Monday morning Archie was stricken, and at 8 o'clock Tuesday morning Guy was found to be suffering with the dread disease. Dr. Whiting notified the health officer and quarantine regulations were at once put in force. Mrs. Harris is nursing the sick ones and a fourth child, aged six, has been isolated in another room in hopes that she will escape the disease. Mr. Randall lives at 203 Glenn street.

## WHAT ARE KIDNEYS?

A Few Facts About Our Kidneys and What They do for Us.

A New Name for Them and for Their Functions—How Dangerous Blood Troubles and Kidney Diseases May be Cured by Seeing to Our Blood Filters.

Kidneys are for use, not show. But they show what they can do when they keep us well, and bright and hearty, and so long as we treat them right and don't overwork them. Our kidneys are there to filter our blood.

If we give them too much to do they do less than they ought to do. They don't filter our blood and they won't till we cure them again.

This is why Dr. Hobb's Sparagus Kidney Pills cure diseases which are not kidney diseases, but which are caused by the kidneys not filtering the blood.

The truth is generally deeper than the surface of things.

If we see a person who has skin disease, or rheumatism, or neuralgia, or a pale, sallow, bloodless complexion, we may know that what is really making him sick is his kidneys. That his blood has not been properly filtered. That until his kidneys begin to work he will never be well again.

That Dr. Hobb's Sparagus Kidney Pills will cure him by curing his kidneys.

When you fall sick be sure you take the right medicine.

It is your blood, see to your filters. If you cure them, they will attend to your blood.

You need no blood "purifiers." Your kidneys are "purifiers" enough. When they are well, they are.

Bright's disease, nephritis, congestion, sleeplessness, backache, sideache, etc., are kidney diseases proper.

Dr. Hobb's Sparagus Kidney Pills will cure them.

Pains in the muscles and joints, headache, neuralgia, Dizziness, weakness, tiredness, lack of breath, anæmia, chlorosis, etc., are blood diseases.

Dr. Hobb's Sparagus Kidney Pills will cure them also.

Dr. Hobb's Sparagus Kidney Pills act on the kidneys in a healing and tonic way. They cure all injuries and pain in the kidneys.

They tone up and give them fresh vigor. They put your blood filters into proper working order again.

After you have taken a few doses you begin to feel new life bounding through your arteries. Your eyes become bright your complexion is cleared, you are ready and anxious for work.

You have a new lease on life.

Your filters are working again. Dr. Hobb's Sparagus Kidney Pills were first prepared by a physician who had long been a specialist on the kidneys. The contain nothing but purely vegetable, harmless drugs of special power over the kidneys.

They will cure the kidneys and all diseases caused by the kidneys when nothing else will.

Sold by all druggists, or mailed prepaid for 50 cents a box.

## SPURRED ON BY A VISION.

The Dream Which Led a Cyclist to Join the L. A. W. at Once.

The admission of one of a party of cyclists that he did not belong to the League of American Wheelmen called forth a shower of surprised comment. He had no excuse to make for his omission save procrastination. He believed it his duty to join, so as to aid in the cause of wheeling, but had neglected to sign an application simply because there was no immediate hurry about it. A blank was secured for him and he at once took the necessary steps to gain membership in the L. A. W.

"That reminds me of my experience," said one of the party. Only it took a vision in the night to bring me to the point of joining. Like our friend here, I delayed about it for no particular reason save that it could be attended to at one time just as well as another. One evening I started for New-England on the Fall River boat, bent on a vacation trip. A friend and I had planned to take our wheels and had talked about riding on them part of the way to the resort for which we were bound. At almost the last moment, however, we had decided not to bring our machines, because the roads which we would have to travel were extremely bad.

"Well, we started on the boat and in due time went to our stateroom. My sleep was a bit troubled and toward morning I had a dream which was so lifelike that it was really a vision. My dream was that I had brought my wheel, having checked it through to Fall River. On arriving there I handed in my check and received a bicycle which somehow I did not notice closely. I mounted, but had not ridden more than a third of a mile when the wheel collapsed completely. I cannot imagine a worse smashup. It was the case of the one-hoss shay over again; frame, rims, spokes, pedal cranks, handle-bar, saddle, everything simply melted apart, as if they had been glued with mucilage.

"It struck me that I must have some other wheel than my beautiful '95 model, so I bent over to see if the bicycle really bore the number of my own. Then I discovered that the pieces lying on the ground were those of a rusty, clumsy old machine of antiquated make. I became indignant at this. 'I'll go right to the consul of the L. A. W.,' I said to myself, 'and have

him go with me to the railway station where I received that wheel. If I, a stranger, went alone I might get scant satisfaction.'

"Then it struck me that I had never joined the L. A. W., although I had months ago decided to do so. So I would have to fight my own battle, and perhaps, so it seemed to me, lost my \$100 wheel simply because I had neglected to pay \$2 to belong to the L. A. W. I went to the baggage-room—and there my dream ended. Of course, it didn't matter what happened after that, the object of the vision being to convince me of the need of my joining the L. A. W. speedily. On returning to New York I did so, and, of course, am extremely glad I did."

Cigars had been finished by this time and so a start was made on the return trip.

## A Paying Case.

That famous steer case of Penley vs. Besse is now being tried for the third time at the Supreme Court in Auburn, and it is estimated that each of the litigants has expended already a matter of about \$400 in contesting over the remains of a bullock worth, at his best, \$120. Both are wealthy men, however, and they are in it for the principle of the thing. On Tuesday, during recess, a brother attorney came and, speaking to the two opposing counsels who were sitting in the attorney's room, said: "Look out in there. Your clients are having a talk together. If you don't watch out they will be settling that case between themselves." Each attorney started in mock alarm and rushed into the court room. The joke lasted the rest of the forenoon. The first time the case was tried the jury disagreed. The second time the verdict was for the plaintiff, but the law court set aside the verdict, and now they are trying for the best two out of three, not including the dead heat.—Lewiston Journal.

## Length of the Earth's Shadow.

The length of the shadow which the earth casts into space has attracted some attention since the eclipse of the moon. This shadow is in the form of a cone with the diameter of the earth as its base. It is 864,000 miles long. That is if you traveled into space, away from the earth, more than three times as far as the moon, the shadow would shield you from the sun, provided you remained on what may be called the night side of the earth. The diameter of the sun is 866,000 miles, that of the earth is 7,926 miles, and the distance from the sun to the earth is 93,000,000 miles.

## English Stage as Mr. Baptist Tells It.

One day Miss Nelginn—an actress whom we should have had some difficulty in recognizing but for the following not wholly individualizing qualification "maitresse du Roi Charles II."—played St. Catherine, and said to those about to lift her body after her martyrdom: "Arretez, chiens maudits! je dois me lever et reciter l'epilogue." (Stop, ye accursed hounds! I must get up here and recite the epilogue.)

## To Restore Bleached Locks.

Many a poor victim of dyed hair would be happy to know how to bring back the natural color after having been an artificial blonde or brunette. Dr. Morin gives them the following receipt, the ingredients mixed in equal parts:

Alcohol of roses.

Oil of bitter almonds.

Tincture of cantharides.

Tincture of citron.—Boston Traveller.

## Russell Sage Drew Out \$16,875.

New York Sun: Russell Sage went to the sub-treasury Friday and drew out \$16,875 in crisp new greenbacks in exchange for treasury checks representing interest payments, and before the occasion for his visit became known there was speculation as to why he was there. The attaches of the sub-treasury say that they never before saw Mr. Sage collect money there personally. Mr. Sage tucked the bills into an inside pocket, buttoned his coat tightly over them and went back to his office.

## Dead Easy.

Before the eyes of the doomed man the fatal knife is tested. At a mere touch it swiftly descends.

The victim cannot forbear to shudder.

"You take life all-fired easy," he mutters, hoarsely.

The executioner presses his hand to his brow. Luckily he has placed a cabbage leaf in his hat to protect him from a sudden rush of blood to the head.—Detroit Free Press.

She was the first woman, it is said, to gain a seat in the reporters' gallery of the house of representatives, and she was also one of the first women bicyclists. She and her husband both believe starchy foods are injurious and declare that fruit and nuts are the only foods nature intended man to eat.

**You Take No Chances . . .**

Neither do you run against a lottery in buying Dry Goods at this store. The month of October shows the record of a great business month,—a thirty days in which was concentrated the largest business ever done by this store during any corresponding month in past years. Popular prices upon popular goods is a combination strong enough in itself to neither require a game of guess nor the uncertain elements of a lottery to push it along. Some merchants bid for patronage one way, some another; one man gives you your chromo and the next one the frame, both, by the way, gems (?) of the first water. To the shrewd trader such wiles are a snare and a delusion, and the economical woman buys her goods where she knows she can do the best. (There are hundreds of them who know that this statement applies particularly to this store.)

Cloaks just now make about the liveliest selling you can imagine; such taking styles; at prices likewise.
